IP65-Rated

Two-Way  
Audio

- **Smart Human Detection**

The on-device AI instantly analyzes each event and accurately determines whether or not a human is present.

- **A Clearer View No Matter How Bright**

WDR allows you to see visitors in sharp detail as they approach your door against any backlighting.

- **Storage in Your Hand**

All recordings are stored directly onto your Wi-Fi Chime's SD card that is located inside your home.

- **See From Head to Toe**

The increased 4:3 Aspect Ratio ensures you get a full-body view of anyone who approaches.

- **Respond in Real-Time**

Speak directly to anyone who approaches your front door via two-way audio.

- **Customized Detection**

Draw an Activity Zone to customize the area in which motion is detected.
