1x T8741 (USB Dongle)
1x T8740 (Doorbell Chime)
Regions: Universal
Requirement: Existing Battery Doorbell with HomeBase 2.

App Setup - Under Battery Doorbell Settings

What's the difference between the doorbell chime for eufy wired doorbell and battery doorbell?

A: The doorbell chimes are the same. But the doorbell chime for battery doorbell includes an extra USB dongle for signal transmission.

Can I mix them for each other?

A: No. Battery doorbell users must use the USB dongle for HomeBase to transmit signal. Please only purchase the doorbell chime for battery doorbell.

How many eufy doorbell chimes can I add to one battery doorbell?

A: Up to 4 additional chimes can be added to one USB dongle. If a battery doorbell user needs to add more than one doorbell chime, he/she could purchase one bundle with the USB dongle and add-on units of the doorbell chime.
