FEATURES

Astria Coaxial Acoustic Architecture

A state-of-the-art design that integrates a customized Knowles balanced armature and an 11 mm dynamic driver. Astria completely eliminates interference while producing harmonized treble and bass for jaw-dropping sound.

In-Ear Studio Performance

Sound is delivered with impeccable depth and nuance; every instrument presented perfectly across an expansive soundstage.

8-Hour Playtime From a Single Charge, 32 Hours with Case

And get 2 hours of listening time from a 10-minute charge.

HearID Technology

Take the test on the Soundcore App to create a custom set of EQ settings that are optimized for your ears.

4 Microphones with cVc 8.0 Uplink Noise Cancellation

Your voice is isolated and transmitted in high-clarity for a seamless hands-free experience.
