A3908 LIFE NOTE

40-Hour Playtime Total
Wireless Earphones

Key Features

40-HOUR
PLAYTIME

40-Hour Playtime

A single charge gives you a full 7 hours of listening, while the charging case extends it to 40 hours of playtime.

Graphene Enhanced Sound

100 times harder than steel and 35% lighter than traditional driver diaphragms, it oscillates with extreme precision to give your music a wider soundstage with exceptional accuracy and crystal-clear clarity across the entire frequency range.

Fast Charge

When you're in a rush and need power fast, simply plug in the USB-C cable for just 10 minutes for up to 1-hour of playtime.

4 Mic Noise Reduction for Clear Call

Each earbud is equipped with two microphones that utilize the latest cVc 8.0 noise reduction technology.

Mono & Stereo Mode

Both earbuds can be used in stereo mode or mono mode.
