

CREATIVE SBS E2500

2.1 High-performance Bluetooth Speaker System with Subwoofer for TV, Computers, Laptops

Creative SBS E2500 is a high-performance 2.1 speaker system that delivers rich and bold audio through a wide array of connectivity options.

Stream wirelessly via Bluetooth, listen to your favorite FM radio channels, or play directly from any USB devices! For wired connectivity, connect via the available 3.5mm AUX-in jack. You can also easily access music playback and audio settings directly on the speakers, and even access the different EQ presets via the included wireless infra remote control.

The Creative SBS E2500 is the perfect choice for your audio entertainment needs.

- **2.1 Speaker System with Far-field Drivers**

High-performance 2.1 Bluetooth speaker system that produces rich audio with 30W RMS and up to 60W Peak power. The speakers are fitted with custom-tuned, far-field drivers for an impressive audio experience.

- **Down-firing Quality MDF Subwoofer**

Down-firing subwoofer that enhances your audio with immersive bass responses – perfect for movies and live performances! The subwoofer comes with quality MDF material for the perfect bass reproduction.

- **Various Connectivity Options – FM Radio, Bluetooth 5, AUX-in, USB MP3 Playback**

A wide array of connectivity options for everyone:

- Listen to your favorite radio stations or DJs with the built-in analog FM tuner
- Featuring the latest Bluetooth 5.0 technology, enjoy high-quality audio wirelessly to your devices without any cable fuss
- Jam out to your favorite tunes from a USB thumb drive using the built-in MP3 Player via plug-and-play functionality
- 3.5mm AUX-in port for wired analogue connectivity to your computer, TV, and more

- **Convenient Control Buttons**

Easily access music playback and volume control from the system's front-facing control buttons.

- **Included Remote Control with Multiple EQ Presets***

For added convenience, we have included an infra remote control so you can adjust the speaker's audio settings, volume and music playback wirelessly. You may also select different EQ presets* via the remote control to suit the audio genre you're listening to, or to fit the mood you're in!

* USB Thumb drive and Bluetooth playback mode only. † Stereo Bluetooth or A2DP profile enables wireless transmission of full stereo sound to other Bluetooth devices. To determine whether your device (notebook, PC or mobile device) is equipped with A2DP-enabled Bluetooth technology, refer to your device manufacturer's documentation/website for more information. Compatible with PC (Windows XP/Vista/7/8/8.1/10), Apple Macintosh equipped with Bluetooth wireless stereo. Compatible with most major brands of Bluetooth A2DP enabled mobile phones. Good reception area for FM radio reception. Thumb drives that are FAT 16 – FAT32 file system compliant. (Max 32Gb). Play MP3 audio file format on USB thumb drives.
